

Appl. No. 10/736,809  
Amdt. Dated May 10, 2006  
Reply to Notice of Allowance dated March 27, 2006

**AMENDMENTS TO THE DRAWINGS:**

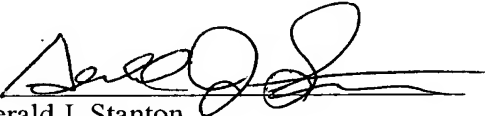

Please replace drawings sheet 9/10 currently on file in this application with the attached "Replacement Sheet" attached hereto. An annotated sheet showing changes made to the drawing sheet 9/10, filed on July 14, 2004, is also attached.

**Remarks/Arguments:**

The Applicant thanks the Examiner for his prosecution of this application, and for the Notice of Allowance to which this Amendment replies. In reviewing the file prior to paying the issue fee (to be paid under separate cover), a discrepancy came to light as between the informal drawing of Figure 10C as originally filed, and the formal drawing of Figure 10C filed on July 14, 2004. Attached are three drawings sheets each bearing Figure 10C: one replacement sheet, one annotated sheet showing changes made with respect to the formal drawing filed on July 14, 2004, and one informal sheet as originally filed. The Examiner's attention is directed to the left side of Figure 10C. In the originally filed informal drawing, a gap is evident in the octagonal ring that couples the ribbons 20A to the ground connection A. The Applicant's representative filed formal drawings on July 14, 2004 in which that gap in Figure 10C was inadvertently absent (see the annotated sheet attached). The attached "Replacement Sheet" corrects that error, so no new matter is added. Entry of the replacement sheet is earnestly requested.

The undersigned welcomes the opportunity to address via teleconference any questions or comments the Examiner might have regarding this replacement drawing sheet or any other matters in this application.

Respectfully submitted:
